3. The adoption of the new forms will certainly involve de-lay in submission for the first time at any rate. That the de-lay may be as short as possible, the forms as modified should be printed as soon as possible.

5. The new financial statement form is much compressed as compared to that at present in use. To me however it seems suf-ficient, but it might be well to have the opinion of the Compt-roller on this point.

6. As it will take some time to settle the points I have indicated, I propose to use the same form this year as were used last year to prevent delay in submission of the returns.

"Special" seems to be used for a different purpose in these two forms - Our special hospitals except Jails and Sowars would come under the head "State Public".

To suit our purpose the statement will have to be made out.-

i. State - Public
   (a) - General, 1st, 2nd and 3rd class.
   (b) - Special, Maternity, Eye Infirmary, Lunatic and Leper Asylums & Infectious Diseases hos-pital.

ii. State - Non-Public.
   (a) - Jails.
   (b) - Sowar.
   (c) - D. P. W. { Sivasamudram, Marikanave, Soldevanhally.

iii. Local Fund.

iv. Private-aided.

v. Private-non-aided.-(Kolar Gold Fields).

vi. Railway.

B = Mysore II.

These are nearly identical - Cannot see the object of sub-dividing children into Male and Female. This will require much extra labour. However the statement may be adopted as it stands.

C = Mysore III.

This is as bad as the old form, but may be adopted, except that we shall add, under General Diseases, "Piroplasmosis", and we shall classify the operations into Major and Minor. I look upon the method of lumping all operations together as exceedingly unfair to the real workers - e.g., one oper-ator does one coeliotomy, another passes a sound fifty - times, the former takes 2 hours perhaps, the passing of a sound takes 2 minutes - Yet each is an "operation". But if all are lumped together, the casual reader will say that one

operator

operator has done 50 times the work of the other - "(which is absurd")

D = No correspondin Mysore form - May be adopted - but the head -ing changed inserting "State - non-public","Railway, & pri--vate non-aided" instead of "State special and railway".

(E = No corresponding statement - but may be adopted.)

(F = Mysore IV.

Though here also the classification of children into Males and Females will give much extra work without corresponding value - ~~mysore~~)

(G = Mysore III-A.

Except that in the latter the name of the operator is gi--ven. This information is not necessary for the Government of India but is very necessary for the Government of Mysore. I suggest therefore that it be retained in the return for Government of Mysore, but omitted in the return for Government of India.)

(H = Mysore V-Part-I.) ✓

(J = Mysore V-Part-II.

Sir,

Referring to your docket No.6435-38 dated 25th January '05 forwarding the printed form H, showing the income and expenditure of the several Hospitals and Dispensaries, proposed to be adopted in lieu of the existing one and enquiring whether any alterations are needed to suit local requirements, I have the honor to state that the new form being more concise than the existing one- it may, in my opinion, be adopted in its entirety, but as such state-ments are compiled by the Senior Surgeon and Sanitary Commission-er from statistics obtained by him from Dispensaries direct, that officer may be consulted before deciding the matter. I may add that this office does not furnish any of the details record-ed in Statement No.V embodied by the Senior Surgeon in his an-nual Report on the Working of the Hospitals & Dispensaries, which statement, it is presumed, is intended to be replaced by the one under consideration.
